

## **TFmini-S LiDAR**

TFmini-S is a single-point ranging LiDAR based on TFmini upgrade. The blind zone is shortened to 10cm, the outdoor performance and accuracy of different reflectivity are improved, it can achieve stable, accuracy, sensitive and high frequency range detection.

## **Main Features**

- Small size
- Light weight
- Low power consumption
- High frame rate(up to 1000Hz)

## Main application scenarios

- Pedestrian detection
- Vehicle detection
- Intelligent barrier gate
- Altimeter

## **SPECIFICATIONS**

Parameters		Typical Value

<sup>1.</sup>Accuracy was calculated based on a standard white board with 90% reflectivity in indoor condition(25°C), changes in conditions may cause errors to increase

<sup>2.</sup> This is a theoretical reference value, there is a certain deviation in the actual angle value.
